

PartyGammon Evaluation Certificate

Operator: PartyGaming

URL: www.partygammon.com

This is to certify that [iTech Labs](http://www.itechlabs.com) have evaluated the PartyGammon games and found that they comply with the relevant iTech Labs Technical Standards*.

We have evaluated Backgammon, Hypergammon and Nackgammon games in the following formats:

- Single game
- Match
- Sit and Go
- Tournaments (Regular)

Our evaluation consisted of chi-squared tests on dice numbers, games testing and evaluation of game performance reports. iTech Labs have conducted game rules evaluation, functional tests and source code evaluation for all three variations of PartyGammon games in single game, match, sit & go and tournament formats. We have found that the games are fair and the system is reliable and resilient.

All major functional changes including new games that constitute major changes are independently tested and certified.

Date: 03 July 2006

* A high level description of iTech Labs Technical Standards is available at http://www.itechlabs.com.au/gaming/iTech_Labs_IGS_Standards.pdf. PartyGammon system currently complies with level-3 standards.

Disclaimer.

While it is not possible to test all possible scenarios in a laboratory environment, iTech Labs have conducted a level of testing appropriate for a component test of this type.
